

# RPM Topics

## Process to Completion

Adrien Ford  
October 26, 2011

### Triennial Review

**October 31** – inform Board

**December 1** - modifications, if any, approved by Board and filed with FERC

### MRC Charges

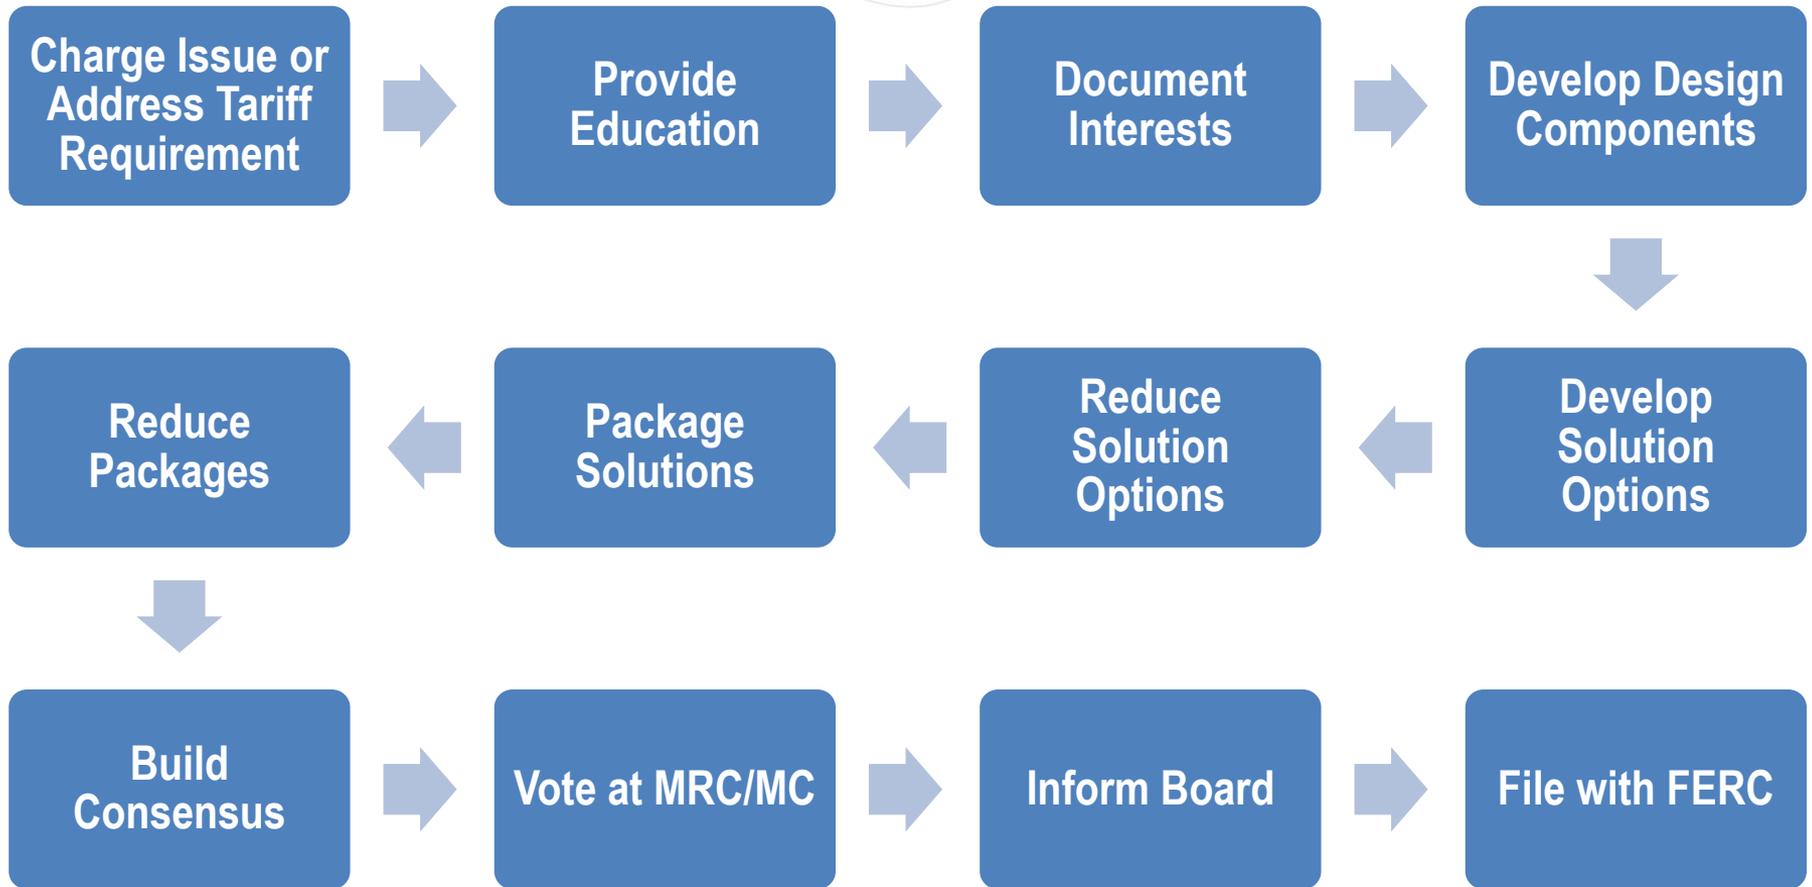

**October 1** - NEPA filing - progress being made

**December 1** – proposals filed with FERC

### Performance Assessment

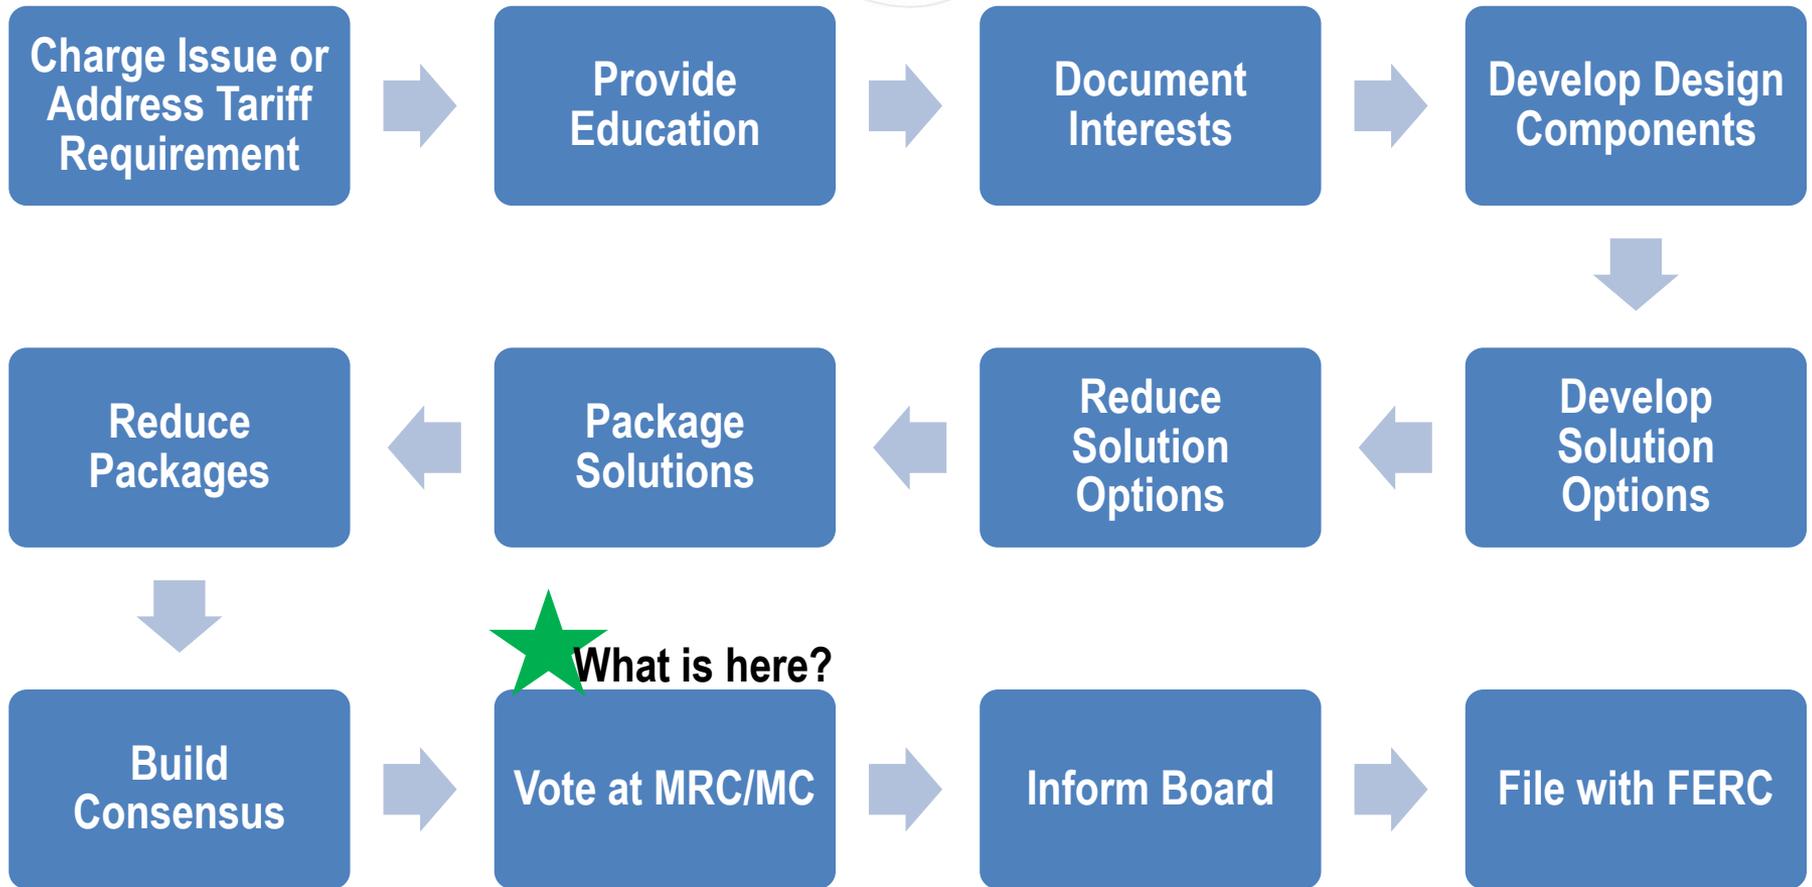

**November 30** - proposals for 2015/16 BRA filed with FERC

**After December 1** – items identified for further stakeholder review to appropriate committees

# MRC Charge Track and Performance Assessment Track

- **Primary Goal - Consensus**
  - Singular package recommended from the special working sessions for approval on each topic at the MRC and MC
- **Secondary Goal – Minimal Packages**
  - Limited number of packages proposed from the special working sessions for vote on each topic at the MRC and MC
- **Lack of Consensus – PJM Provides Option**
  - PJM will recommend a package for MRC and MC vote on each topic that does not achieve the primary or secondary goal
- **Three-Two Rule – Alternate Advancement**
  - Any package with the support of three voting MRC members from at least two different sectors will be forwarded to the MRC and MC in the process summary

- New Entry Pricing Adjustment
  - Tariff Clarifications
  - Minor Change – Packages 2, 4, and 8
  - Market Design Change – Packages 1, 3 and 6
- Fixed Resource Requirement
  - Status Quo and Package 2
- Self Supply
  - Status Quo and Package 2
- Energy and Ancillary Service Offset
  - Options A and E – same method as VRR Curve
- Minimum Offer Price Rule Exception Process
  - As Filed and Package 3

- CETL topics
  - As proposed by Paul McGlynn for consent
- Load forecast
  - As proposed by Paul McGlynn for consent
- Voluntary auction
  - Rolled into NEPA Market Design discussion
- Short-term resource procurement target
  - Status Quo and Packages 1 and 2

- ✓ Further build consensus
- ✓ Identify the packages that will be voted at the MRC and MC for each topic as we conclude discussions
- ✓ Identify any “three-two” packages that will be forwarded to the MRC and MC in the process summary
