

# Member Communications Issue

OC Meeting  
May 6, 2014

- April 7, 2014: FERC Approval of Tariff changes effective
- Today: First Read of M-1 and M-14D manual changes

- Current threshold to get PJMNet, and have the cost subsidized by all members, is 100 MW of aggregated generating assets
- Threshold was questioned during the stakeholder process, and was later tabled
- Options
  1. Continue to work on the threshold issue via Special OC group
  2. Let the current PJMNet solution exist for the time being, and open up the threshold challenge as a new issue if necessary
