Tech Change Forum

- Implementation delayed due to software error

Action Required	Deadline	Who May Be Affected
Share this information with your FTR participant staff	February TBD	FTR Auction Participants

- FTR auction bid limit enforcement change
 - Bid limits are now enforced by corporate entity instead of participant
 - Manual 6, Revision 26 endorsed at January MRC
- FTR Center Production software implementation of bid limit enforcement postponed

- FTR Center Train
 - Software has been installed into Training environment
 - Some users may experience a credit requirement calculation error when submitting bids via XML
 - Submitting a bid through Quotes tab first, may resolve this issue
 - Working with our vendor to understand and implement a fix for this issue
- FTR Center Production
 - Due to this unforeseen issue, FTR Center Production software implementation of bid limit enforcement has been postponed until a fix has been found and verified
- In the interim, enforcement is being handled manually through direct communication between FTR Group and any participants exceeding the corporate entity's bid limit

- Train FTR Center Software Availability
 - Now
- Production FTR Center Software Availability
 - Dependent on software resolution
 - Potentially before the 21/24 Long Term Auction, Round 5 bid opening day of Monday, March 1, 2021
