

Cost Commitment for Competitive Transmission Proposals - Update

Janell Fabiano
Sr. Stakeholder Process Specialist
Members Committee
June 21, 2018

May 24, 2017: PC- Cost Containment special sessions started

January 25, 2018 MRC: main motion (PJM) fails vote. Alternate motion (LS Power) moved and seconded. Vote deferred until May for additional work and discussion of alternate motion

February 9, - May 11, 2018: Seven PC Special Sessions held, engaging full CBIR process

May 3, 2018: PC informational votes on PJM packages and a recommendation to the MRC to defer for more time to allow additional consideration.

May 24, 2018: MRC Vote

LS Power proposal with AMP friendly amendment endorsed with 3.79 in favor.

June 7, 2018: PC status update including a review of the proposal templates with implementation planned for the 2018 window.

June 21, 2018: Proposed OA revisions offered for an approval vote at MC

Future Items (should the MC approve the proposed OA revisions):

- Initial Comparative Framework will return to MRC for review by December, 2018 to be effective for the 2018 Long-lead Project Proposal Window.
- Additional ROE Comparative Framework will return to MRC for review by May, 2019 to be effective for the 2019 windows.
