# Quick fix on Dual Fuel Class definition tariff language

#### **Issue Source**

Calpine

#### **Issue Content**

Amend the definition of dual fuel class to clarify that a dual fuel unit starting independently using behind the fuel meter sources is permissible. The alternate fuel remains delineated as the fuel used for operation.

### Key Work Activities and Scope

- 1. Review of the provision at issue.
- 2. Review and discuss the proposed solution.

# **Expected Deliverables**

Update to the tariff and Reliability Assurance Agreement

### **Decision-Making Method**

Quick Fix Alternative Process under Section 8.6.1 of PJM Manual 34

# Stakeholder Group Assignment

MRC

# **Expected Duration of Work Timeline**

Language is expected to be completed and voted out of the MRC in April. MC is expected to have completed endorsement vote on May 6, 2024 in time for a FERC filing for the December 2024 BRA (2026/27 DY).
