

Reliability Compliance Update

Becky Davis December 2023 NERC Compliance

NERC Projects

STANDARD: MOD-026

Project 2020-06 Verifications of Models and Data for Generators

| PROJECT BACKGROUND: | Action | End Date |
|--|-------------------------|----------|
| New proposed terms (to be included in the NERC Glossary of Terms) | | |
| Inverter-Based Resource (IBR): A source (or sink in the case of a charging battery | Join Ballot Pools | 12/15/23 |
| energy storage system (BESS)) of electric power that is connected to the electric power system (transmission, sub-transmission, or distribution system), and that consists of one or more IBR Unit(s) operated as a single resource at a common point of interconnection. IBRs include solar photovoltaic (PV), Type 3 and Type 4 wind, BESS, and fuel cell. | Comments & Balloting | 01/09/24 |
| IBR Unit : An individual device, or a grouping of multiple devices, that uses a power electronic interface(s), such as an inverter or converter, capable of exporting Real Power from a primary energy source or energy storage system, and that connect together at a single point on the collector system. | | |
