

Supplemental Notice of Section 205 Filing

On September 6, 2012, PJM Interconnection, L.L.C. (“PJM”), presented to the Regional Planning Process Task Force proposed revisions to Schedule 6 of the PJM Operating Agreement to provide for the potential inclusion in the Regional Transmission Expansion Plan (“RTEP”) of Transmission Facilities approved through the State Agreement process.

The Attachment H Transmission Owners (“TOs”), acting pursuant to Section 7.2 of the Consolidated Transmission Owners Agreement and Section 9.1 of the PJM Tariff, will submit a section 205 filing to FERC for compliance with the requirements of Order No. 1000 for the allocation of the costs of new PJM Board-approved RTEP projects. The TOs will include in that section 205 filing revisions to Schedule 12 of the PJM Tariff required to allocate the costs of transmission projects that would result from the revisions to Schedule 6 that PJM submits to FERC in connection with the State Agreement process and related matters as part of its filing to demonstrate compliance with the requirements of Order No. 1000.
