

Data Miner 2

Thomas F. Zadlo
Tech Change Forum
September 27 & 28, 2016

- PJM makes public data available (CSV and Excel files) from pjm.com (over 50 separate feeds of markets and operations data)
- LMP data available through the Data Miner tool
 - Data Miner allows for automated download and user queries
- Members have requested more data available via Data Miner
- Members often have issues locating data of interest

- PJM will be significantly expanding the Data Miner 2 tool in 2016/2017
 - Streamlined user interface
 - APIs available for system to system integrations
- Data Miner 2 will become the central source for PJM public data
- Data Miner 2 will be available as a beta test in Q2, 2017
- Details will be made available via the Tech Change Forum

- More data will be available via Data Miner, with increased reliability, performance, and ease-of-use
- After an appropriate transition time, PJM will retire flat file postings from pjm.com
- Feedback will be sought on beta release and transition time
