DR Hub Roadmap

As of October 26, 2016
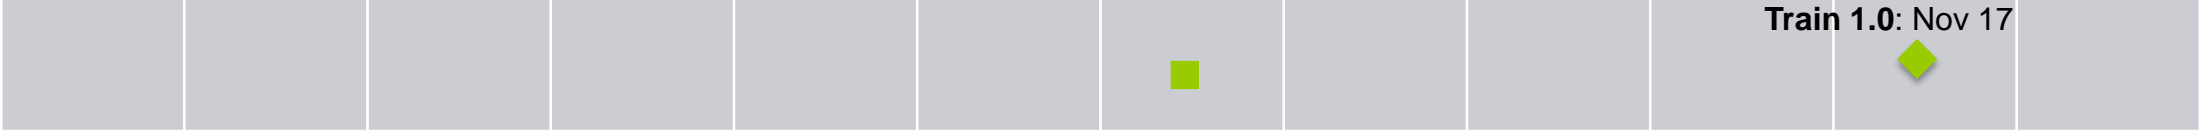

DR Hub (future replacement for eLRS) allows PJM members to administer the registration, notification, meter data and settlement process for Demand Response resources in the PJM markets.

Key Product Features

- User Interface that allows CSPs, EDCs and LSEs to manage tasks, create/ manage locations, registrations and settlements.

- Web Services that allows many of the same UI features and includes a polling mechanism for Events
