

FTR Center and Capacity Exchange Roadmap

As of October 26, 2016

[FTR Center](#) is the replacement for eFTR. FTR Center allows users to view and enter financial transmission rights graphically.

Customer Impact

- Both eFTR Train and production environments will be retired on November 2, 2016. At that time, only the replacement tool for eFTR, FTR Center, will be available.
- Customer will be required to update/replace existing browserless settings.
