

# General Updates

Jim Gluck  
December 1, 2016

- No recent production issues to report

- Dates/times when system changes that may be particularly impactful should not be performed
  - First 5 business days of the month and Tuesdays (MSRS)
  - Around bank and other holidays
  - During day-ahead market execution periods (10:00am - 2:00pm)
  - During RPM & FTR auctions

- Issues with wireless connectivity in the CTC?
