

# MISO-PJM CTS Initiative Roadmap

Swapna Kanury  
Client Management

- Will facilitate a joint clearing of bids between RTOs, using advisory and real-time pricing
- Adjustments to associated schedules/eTags required for energy to flow in real-time
- Will add a capability to optimize real-time transactions between PJM and MISO in order to lower system costs for the two RTOs

- ExSchedule
  - New portal for bid entry
  - Change to the logic for validation
- Markets – SCED engine
  - Changes to accommodate CTS transactions
  - Common clearing engine
- Data Exchanges – multiple exchanges with MISO
