

Data Miner 2

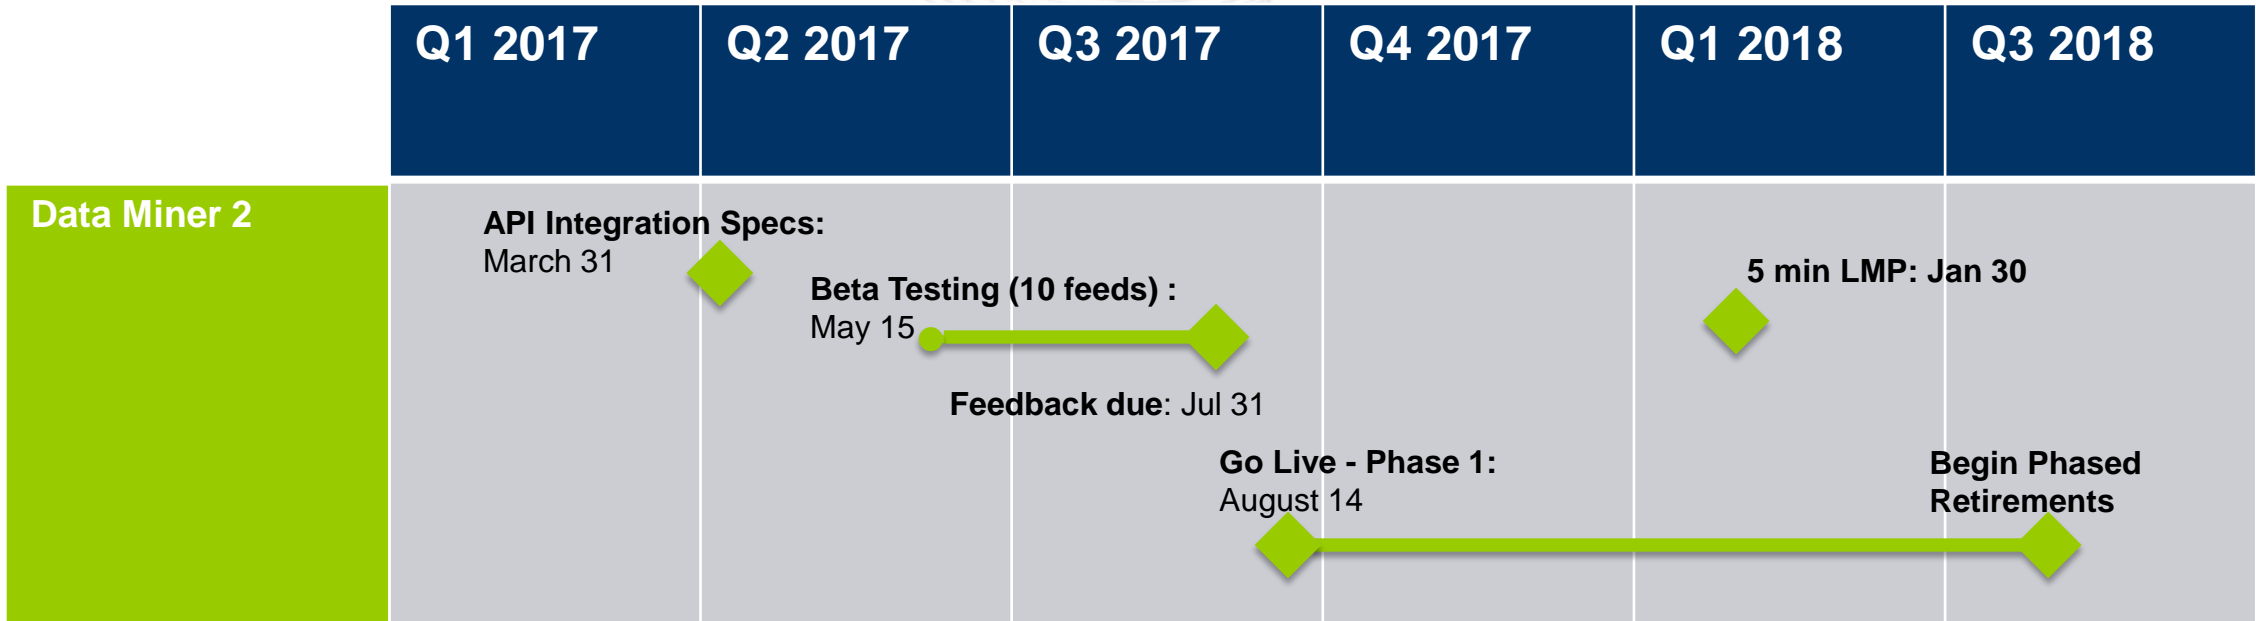

Venkat Balachandran
Tech Change Forum
February 27 & 28, 2017

Data Miner 2 will become the central data repository for PJM public portal. The interface will allow users to view and download PJM public data.

Key Product Features

- Unified / highly available portal for all PJM public data
- APIs available for system to system integrations
- Metadata available

Legend

- Start Date
- ◆ End Date

- Training sessions will be setup for API Developer Portal / UI
- Visualization will be added to existing tools – Data viewer.
- Enhanced visualization possible in future based on member feedback and interests.
- More data will be available via Data Miner, with increased reliability, performance, and ease-of-use.
- Existing flat files will be retired approximately one year after Go Live. Targeting Q3 2018 to begin retiring existing pjm.com postings.

- Similar look and feel to Data Miner
- Data Feed portal hosted on Microsoft Azure Cloud Platform
 - Filtering, Pagination, and Sorting
 - Data Dictionary Search
- RESTful web API services
- Supports multiple Data Formats
 - JSON
 - XML
- Versioning
