

Audit of 30 Minute Lead Time Exceptions

DRS

February 24, 2015

- 30 Minute Lead Time is mandatory for 2015/2016 Load Management registrations
- Exceptions may be requested for 60 or 120 Minutes for the following reasons as defined in the tariff:
 - Manufacturing damage
 - Generation start time
 - Safety problem
 - Mass market comm

- Audit will begin April 15 prior to a Delivery Year
- CSPs will have randomly selected registrations audited with either Short_60 or Long_120 Lead Time
- DR Operations will email each CSP with list of registrations to be audited
- CSP has 3 business days to respond with documentation that supports the exception

- If CSP fails to send supporting documentation n the 3 business days, that registration will be set to Quick_30 Lead Time
- PJM has 10 business days to accept or reject the documentation
