DRAFT

2016/17 CP Notification Process for Shortened Lead Times (including No Notice)

- Typical LM CP dispatch will honor registration Lead Times
- However, there may be times when LM CP will have reduced, or eliminated (i.e. No Notice) Lead Time to ensure grid reliability

- All dispatch of CP LM will start with the normal notification process
 - Electronic notification from eLRS
 - Web Posting on Emergency Procedure web page
 - All Call

- Shortened Lead Time
 - Once the initial event notice has been issued, the lead time for CP LM can be shortened to as little as none.

- When PJM needs to shorten the lead time:
 - a posting will be made on Emergency Procedure web page and
 - an All Call will be issued
 - There will not be any electronic notification from eLRS
 - This will change when eLRS is retired and DR Hub is activated

Dispatch – “no or reduced notice” examples

“no notice”

Dispatched with eLRS/electronic notification						Start Time update with EP/All Call			
Scenario	Resource	Product	Lead Time	Zones	Notify Time	DR Normal Start Time	EP/All Call message	EP/All Call message notify time	DR effective Start Time
1	Pre-Emergency	CP & Base	Long (2 hour)	PECO	13:15	15:15	Load Management Truncated Lead Time	13:16	13:16
2	Pre-Emergency & Emergency	CP & Base	Short (1 hour), Long (2 hour)	PECO, PPL, BGE	14:40	15:40 & 16:40	Load Management Truncated Lead Time	15:00	15:00

“reduced notice”

Draft EP web page mock screenshot for truncated lead time posting using Scenario 1:

12345

Load Management Truncated Lead Time

PECO

The Lead Time for the following Load Management resources has been reduced. Reductions should be implemented by the Reduction Start Time stated in Regions details.

Referenced in All Message

Click on zone to access details

Resource	Zone	Lead Time	Product	Reduction Start Time
Pre-Emergency	PECO	Long_120	CP	13:16
Pre-Emergency	PECO	Long_120	Base	13:16

- ***Load Management Truncated Lead Time Notification:***

- “This is (name) with an emergency procedures message. As of (state EP posting time) PJM has truncated the lead time for certain Load Management resources as identified on the PJM Emergency Procedures webpage. See Emergency Procedure message identification number (12345) for details. This is (name) that is all.”

Reference to EP posting

- Shortened Lead Time Events will end normally by:
 - Electronic Notification from eLRS
 - Emergency Procedure web posting
 - All Call
