

- Section 3.3.3: Updated the generator voltage schedule coordination among TOs, GOs, and PJM.
 - Clarified Transmission Owner responsibilities.
 - Added voltage schedule deviation criteria for GO notification to the TO and PJM.
 - Reason for the changes are:
 - Aligning with language in VAR-001-4 R5
 - Aligning the PJM Manual with the PJM TOP/TO Assigned Task Matrix
 - Consistency with operational practice
