

PJM Manual M10 – Pre-Scheduling Operations Proposed Revision 35

Augustine Caven
Sr. Lead Engineer, Generation Department
Markets & Reliability Committee
November 17, 2016

- Periodic Review
- Exhibit 1 and Section 5.1 – administrative change - updated market deadlines
- Section 2.3 – Maintenance Outages – administrative change - deleted last sentence which is obsolete
- Section 5.1 – Markets Database – added new bulleted item to reflect the proper status of units in Markets Gateway when reduced or on an outage.
- Section 5.2 – Changed section title from “Change of Generation Ownership Process” to “Generation Transfer Process”. Added new rules for implementation of the Generation Transfer Process.

- Section 2.3.2.1 – Added clarifications on steps taken by PJM to implement and conclude 72 hour Recall of Maintenance Outages.
- Section 2.6 – New section with business rules for Ending Generator Outages in eDART.
