

GO Seasonal Fuel Survey

SOS Meeting
September 28, 2016

- PJM to issue seasonal fuel survey via eDART
- Timeline:
 - Issue to GOs through eDART: 10/14/2016
 - Responses due back to PJM from GOs: 11/18/2016
- Minor changes to the existing seasonal fuel survey questions
- PJM to pre-populate with responses from last year – exceptions are units that have changed modeling or units that have changed ownership

- Proposed Periodic Emissions Survey:
 - Member responses for key emissions questions in seasonal survey to be used to create a subset of units to monitor via periodic (e.g. monthly, as-needed, etc.) survey
 - Is unit's run time on primary/secondary fuel limited by emissions?
