

EDART STATUS UPDATE – SOS MEETING

I. November Enhancements

- Reactive Reserve Check Enhancements: Self-Check Data
 - New report available with September release.
 - Data to be updated every 5 minutes.
- Owners Report Maintenance Notification and Admin Functionality

II. December Enhancements – 12/14

- Alternative One-Line Diagram Files
- Network Model Form Update
- Reactive Testing Results Tickets
 - Browserless interface update planned for Q1 2017.
 - Current email process to be retired May 1, 2017.
- Early Switch Start Business Rules:
 - All MW outage tickets, except Unplanned outage tickets, can only be started up to 1 hour in advance of the Est. Start Time.
 - Planned outages cannot be started early if the Est. Start Time – 1 hour falls into peak period maintenance.
- Outage Cause Type Descriptions (Transmission and Generator Outages)

III. Discussion Topics

- eDART refresh plan discussed during October OC meeting.
- User Group meetings planned for mid-November.
