

TO/TOP Matrix Version 10

Srinivas Kappagantula, Sr. Analyst
Chair, TO/TOP Matrix Subcommittee
System Operations Subcommittee
October 26, 2016

- Index between the PJM Manuals and the NERC Reliability Standards
- Delineates the Assigned/Shared Tasks between PJM and the Member TO for NERC Reliability Standards applicable to PJM as the TOP where PJM relies on its TOs to perform certain tasks
- Does not create any new obligations for PJM or its Member TOs
- Simply a cross-reference indicating where the assignment of various reliability tasks is documented
- An efficient and effective tool fundamental to a strong PJM Internal Control – The PJM TO/TOP Audit Program

- Currently Version 9.1 effective as of January 26, 2016
- Categories of Changes incorporated in Version 10
 1. Addition of New NERC Reliability Standards
 2. Assigned/Shared Task Updates from COM-002-4 Operating Instructions
 3. ReliabilityFirst Annual Review of V8 Recommendations
 4. Deletion of NERC Reliability Standards Inactive for More Than 3 Years

EOP	EOP-005-2	R1	Each Transmission Operator shall have a restoration plan approved by its Reliability Coordinator. The restoration plan shall allow for restoring the Transmission Operator's System following a Disturbance in which one or more areas of the Bulk Electric System (BES) shuts down and the use of Blackstart Resources is required to restore the shut down area to service, to a state whereby the choice of the next Load to be restored is not driven by the need to control frequency or voltage regardless of whether the Blackstart Resource is located within the Transmission Operator's System. The restoration plan shall include: <i>[Violation Risk Factor = High] [Time Horizon =Operations Planning]</i>	S	<ol style="list-style-type: none"> 1. Each Member TO shall have a restoration plan that supports restoring the Transmission Operator's System following a Disturbance in which one or more areas of the Member TO's BES shuts down. 2. The Member TO shall send the Member TO restoration plan to PJM for approval. 	PJM will review, recommend revision, and/or approve submitted Member TO Restoration Plans.

<p>1. Do you have a restoration plan that supports for restoring the Transmission Operator's System following a Disturbance in which one or more areas of the Member TO's BES shuts down? 2. Is it approved by PJM?</p>	<p>Exhibit your restoration plan and show that it covers a plan to reestablish its electric system in a stable and orderly manner in the event of a partial or total shutdown of its system, including necessary operating instructions and procedures to cover emergency conditions, and the loss of vital telecommunications channels. 2. Show evidence of approval by PJM.</p>	<p>M-36 System Restoration, Section 8-System Restoration Plan Guidelines; Section 1.1-Policy Statements, PJM Member Actions, Attachment G: Coordination of Restoration Plan with PJM Internal and External Neighboring Entities</p>	<p>7/1/2013</p>	<p>None</p>

- Evidence of compliance
- Formal delegation agreement
- Joint Registration Organization (JRO) or Coordinated Functional Registration (CFR)
- A means of creating new obligations for PJM or its Member TOs other than those specified in the PJM OATT, OA, CTOA, PJM Manuals and other governing documents
- A list of how all TOP requirements are met

- TO/TOP Matrix Subcommittee (TTMS), a PJM subcommittee with participation limited to Member TOs, develops and maintains the TO/TOP Matrix
- The TTMS reports to the Transmission Owners Agreement-Administrative Committee (TOA-AC), which approves the Matrix
- Monthly meetings to collaborate on new or existing NERC Reliability Standards applicable to PJM as the TOP

Typical Roadmap to a Version Approval

Review Future Standards Incorporation Plan and prioritize accordingly

Develop Assigned and/or Shared Tasks for NERC Reliability Standard Requirements where PJM relies on Member TOs

Conduct an annual review of the Matrix and agree to a final version for updates to various stakeholders

Take finalized version to PJM SOS, OC, and PC, seeking their recommendation to TOA-AC to approve the Matrix

Present finalized version to TOA-AC, that approves the Matrix. Publish the approved Version.
