CCPPSTF Poll - March 2017

Objectives

In support of Key Work Activity #1 as identified in the Capacity Construct/Public Policy Senior Task Force (CCPPSTF) Issue Charge, please respond to the following questions as they relate to objectives of a well-functioning capacity construct.

Please rate the importance of the following 5 objectives as they relate to a well-functioning capacity construct.

	Not at all important	Slightly important	Important	Fairly important	Very important	N/A
Resource Adequacy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Price Signals	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Competitive Markets	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Performance Requirements	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Resilient to/Harmonizing with external influences	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please rank these objectives in their order of importance to you. Number 1 should be used to indicate that an objective is most important to you while a number 5 should indicate that an objective is of least importance. Each number can be used only one time.

<input type="text" value="1"/>	Resource Adequacy
<input type="text" value="2"/>	Price Signals
<input type="text" value="3"/>	Competitive Markets
<input type="text" value="4"/>	Performance Requirements
<input type="text" value="5"/>	Resilient to/Harmonizing with external influences

CCPPSTF Poll - March 2017

Resource Adequacy sub-objectives and characteristics

Please rate the importance of the following sub-objective for Resource Adequacy.

	Not at all important	Slightly important	Important	Fairly important	Very important	N/A
Ensure resource adequacy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please rate the importance of the following characteristics for Resource Adequacy.

	Not at all important	Slightly important	Important	Fairly important	Very important	N/A
Meet RTO & LDA Reliability Requirements through competitive procurement	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Provide revenue sufficiency ("missing money")	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
A construct that is flexible enough to accommodate current and future resource types	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
A construct that produces a planned mix of resources	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please rank these characteristics of Resource Adequacy in their order of importance to you. Number 1 should be used to indicate that a characteristic is most important to you while a number 4 should indicate that a characteristic is of least importance. Each number can be used only one time.

<input type="text" value="1"/>	Meet RTO & LDA Reliability Requirements through competitive procurement
<input type="text" value="2"/>	Provide revenue sufficiency ("missing money")

Price Signals sub-objectives and characteristics

Please rate the importance of the following sub-objective for Price Signals.

	Not at all important	Slightly important	Important	Fairly important	Very important	N/A
Provide transparent price signals	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensure the strength of price signals that result from the capacity market (provide proper price signals for resources to stay or enter)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please rank these sub-objectives of Price Signals in their order of importance to you. Number 1 should be used to indicate that a sub-objective is most important to you while a number 3 should indicate that a sub-objective is of least importance. Each number can be used only one time.

⋮

Provide transparent price signals

⋮

Ensure the strength of price signals that result from the capacity market (provide proper price signals for resources to stay or enter)

Please rate the importance of the following characteristics for Price Signals.

	Not at all important	Slightly important	Important	Fairly important	Very important	N/A
Forward for actionable response	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Forward for actionable response for entry, exit or maintenance	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Locational to incent investment where needed	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Year-over-year stability to reduce investment risk and cost	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Continue to produce results that are consistent with entities making decisions on the basis of revenues and opportunities in the market	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Any construct would produce efficient market entry and exit	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please rank these characteristics of Price Signals in their order of importance to you. Number 1 should be used to indicate that a characteristic is most important to you while a number 4 should indicate that a characteristic is of least importance. Each number can be used only one time.

⋮ ↕ Locational to incent investment where needed

⋮ ↕ Year-over-year stability to reduce investment risk and cost

CCPPSTF Poll - March 2017

Competitive Markets sub-objectives and characteristics

Please rate the importance of the following sub-objectives for Competitive Markets.

	Not at all important	Slightly important	Important	Fairly important	Very important	N/A
Provide fair competition between resource alternatives	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Ensure competitive market outcomes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Produce just and reasonable rates for capacity, recognizing the costs being paid by customers for any state programs regarding resource adequacy, fuel diversity, and public and environmental policy	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please rank these sub-objectives of Competitive Markets in their order of importance to you. Number 1 should be used to indicate that a sub-objective is most important to you while a number 3 should indicate that a sub-objective is of least importance. Each number can be used only one time.

<input type="checkbox"/>	<input type="text"/>	Provide fair competition between resource alternatives
<input type="checkbox"/>	<input type="text"/>	Ensure competitive market outcomes
<input type="checkbox"/>	<input type="text"/>	Produce just and reasonable rates for capacity, recognizing the costs being paid by customers for any state programs regarding resource adequacy, fuel diversity, and public and environmental policy

Please rank these characteristics of Competitive Markets in their order of importance to you. Number 1 should be used to indicate that a characteristic is most important to you while a number 7 should indicate that a characteristic is of least importance. Each number can be used only one time.

Planned and existing resources

Generation, DR, EE, and QTU

Market Power Mitigation/MOPR

Markets should continue to be compatible with all types of business platforms (merchant or competitive entries, investor owned utilities, and public power self-supply)

A construct that produces market results that are free from the influence of market power and market manipulation

Constructs produce competitive results accounting for the life of the asset

A construct that sufficiently precludes the need to constantly pursue reactive changes

Please rank these characteristics of Performance Requirements in their order of importance to you. Number 1 should be used to indicate that a characteristic is most important to you while a number 5 should indicate that a characteristic is of least importance. Each number can be used only one time.

	<input type="text" value=""/>	Delivery Year performance assessments and related charges
	<input type="text" value=""/>	Charges for non-performance if failure to perform when needed by PJM
	<input type="text" value=""/>	Non-performance change strict enough to incent investment in resource to improve availability

Please rank these characteristics of Resilient to/Harmonizing with External Influences in their order of importance to you. Number 1 should be used to indicate that a characteristic is most important to you while a number 4 should indicate that a characteristic is of least importance. Each number can be used only one time.

Markets should be consistent with and operate within the constraints of all applicable state and federal regulations

Ensure auction outcomes including clearing prices and resources that clear remain unaffected by initiatives to pick winners and losers

Clear procedures for dealing with out-of-market or subsidized payments (including a clear definition of what constitutes a subsidized resource)

Minimization of effects of subsidization in capacity market outcomes
