Designated Entity Agreement (DEA) and Interconnection Coordination Agreement (ICA) Requested Endorsement

June 26, 2014
MC Meeting, Wilmington, DE
Fran Barrett

- Respond to any questions on the proposed:
 - Designated Entity Agreement (DEA), and
 - Interconnection Coordination Agreement (ICA)
- Request MC Endorsement of DEA and ICA to:
 - Enable DEA Compliance Filing before July 14, 2014
 - Enable ICA Filing in conjunction with DEA Filing

- In accordance with FERC-approved Order No. 1000 process, PJM designates an entity to develop and construct a specified project to expand, replace and/or reinforce the Transmission System operated by Transmission Provider;
- Agreement by and between PJM and the selected Designated Entity;
- Declares defined terms, duties, accountabilities and obligations of each party, and
- Documents Project Scope, Planning Criteria, Development Schedules, Project Milestones, Terms & Conditions, etc.

- In accordance with FERC-approved Order No. 1000 process, PJM notifies Designated Entity and Transmission Owner(s) of project and associated interconnection points
- Designated Entity has accepted the designation and the obligations to build the project
- Transmission Owner has accepted the designation from PJM to construct modifications to its transmission facilities in order to effectuate interconnection with the project,
- ICA provides:
 - Coordination of Designated Entity and Transmission Owner with each other to facilitate the interconnection of the Project to the Transmission Owner's transmission facilities
 - Defined terms, duties, accountabilities and obligations of each party, and
 - Ensures activities are undertaken in a reliable, safe, and timely manner to enable the Project to meet its Required Project In-Service Date

- Required DEA filing by July 14, 2014
 - PJM Interconnection, L.L.C., 147 FERC ¶61,128 (May 15, 2014) (2nd Compliance Order) at P 261.
 - Compliance Filing. *Pro Forma* Designated Entity Agreement (P 261). File within 60 days of the date of the Order, July 14, 2014.
