

ARR FTR Market Task Force Monthly Progress Report

9/14/2020

1. [ARR/FTR Market Review](#)

Issue Status

The ARR FTR Market Task Force (AFMTF) is on hiatus until approximately late October 2020.

Target Completion

The AFMTF is expected to complete by the end of 2020.

Progress Update

The AFMTF has held seven meetings to date. At the most recent meeting on July 22, 2020, PJM reviewed the results of the poll, which was conducted to decide on the recommendation that would be brought to the MIC regarding next steps of the AFMTF during the consultant's review. With 89% in favor of the AFMTF going on hiatus during the consultant's review, it was concluded at the meeting that going on hiatus would be the recommendation brought forth at the August MIC. Following the poll results review, Dr. Howard Haas, Monitoring Analytics, concluded the Monitoring Analytics presentation on congestion calculations.
