

## New Load Locating Behind the Meter of an Existing Generation Resource

### Issue Source

PJM

### Issue Content

While the PJM tariff provides provisions that address generation that is added behind the meter with the existing load of a Network Service Customer, no existing tariff or PJM manual provisions clearly address new load that is added behind the meter of an existing generation resource particularly in the case of the proposed arrangement in which the new load is to be served solely by the generation resource.

This issue charge is intended to review and update the PJM tariff and/or relevant PJM manuals to ensure that they include clear provisions that address new load that is proposed to be added behind the meter of an existing generation resource.

### Key Work Activities and Scope

The following are some key work activities that should be undertaken to address the issue articulated above.

- KWA # 1: Education on existing PJM Tariff and PJM Manual provisions regarding the addition of new generation behind the meter with existing load of Network Service Customer.
- KWA # 2: Assess whether these existing provisions can be equally applied to the case where new load is proposed to be added behind the meter of an existing generation resource for two different proposed arrangements: (1) new load to be served from the system when the generation is not operating, and (2) new load is solely served by the generation and never from the system.
- KWA # 3: Develop new tariff and manual provisions to address any short-comings of existing provisions identified by KWA #2.

### Expected Deliverables

Possible revisions to Tariff and Manual language (M-14D: Generation Operational Requirements, M-14G: Generation Interconnection Requests, M-21: Rules and Procedures for determination of Generating Capability); possible filing with the FERC.

### Decision-Making Method

Tier 1 (consensus)

### Stakeholder Group Assignment

Market Implementation Committee

### Expected Duration of Work Timeline

It is proposed and recommended that KWA #1 begin in May 2021 and KWA # 2 and # 3 begin thereafter, with work to conclude in four to six (4-6) months.

Start Date	Priority Level	Timing	Meeting Frequency
5/1/2021	<input type="checkbox"/> High <input checked="" type="checkbox"/> Medium <input type="checkbox"/> Low	<input type="checkbox"/> Immediate <input checked="" type="checkbox"/> Near Term <input type="checkbox"/> Far Term	<input type="checkbox"/> Weekly <input checked="" type="checkbox"/> Monthly <input type="checkbox"/> Quarterly

## Charter

*(check one box)*

<input type="checkbox"/>	This document will serve as the Charter for a new group created by its approval.
<input checked="" type="checkbox"/>	This work will be handled in an existing group with its own Charter (and applicable amendments).
