

Proposal to Consolidate DRS and DIRS into one MIC Subcommittee

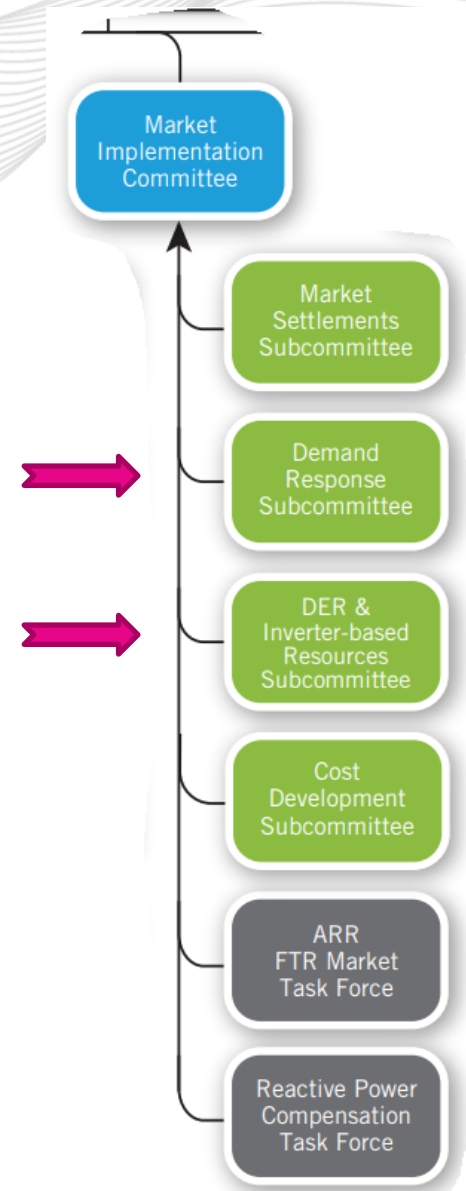

MIC

October 6, 2022

Scott Baker

Pete Langbein

- Consolidate the scope of the DIRS and DRS into a single subcommittee reporting to the MIC
- + Considerable stakeholder and substance overlap between demand response participation and future DER Aggregator Participation Model (Order 2222)
- + PJM staff and stakeholder resource efficiency

- Sunset DRS and DIRS;
- Create new subcommittee whose charter encompasses the scope of both groups.

Subcommittee Notice	First Read	Endorsement
9/2, DRS	10/6 MIC	11/2 MIC
9/23, DIRS		

- **New Subcommittee**
 - Full-day, monthly meetings (scaled up or down, as needed)
 - Order 2222 compliance/implementation work may necessitate more time / dedicated meetings.
 - Agenda items grouped together by topic area (DR, DER, EE, etc.)
 - Charter broadened to include behind-the-meter-generation and Energy Efficiency, in addition to existing scope of DR, DER, and Inverter-based resources.
