

Executive Summary – Manual Changes

Effective Date:

Impacted Manual #(s)/Manual Title(s):

Yes/No. Are there any Tariff, OA, or RAA revisions? (If unsure, please contact Legal.)

Conforming Order(s):

Associated Issue Tracking Title:

Committee Approval Path - What committee(s) have already seen these changes?

MRC 1st read date:

MRC Voting date:

Impacted Manual Sections:

Reason for Change:

Manual 15 did not include the cost offer information when the Regulation Market changes went into production. Those items were covered in Manual 11. We have moved them into M15 and are also removing them from M11 as a conforming change that is currently in the MIC process.

Summary of the changes:

M15:

- Section 2.8 insert regulation cost offer component bucketing from M11 sub-section 3.2.1 and update regulation cost offer calculation example.
- Section 11.8 re-define energy storage losses.
