

- Do not compensate Tier 1 MW outside of response to a synch reserve event
 - Tier 1 credits essentially revert to the calculation in place prior to the shortage pricing implementation
- No longer estimate Tier 1 MW on self-scheduled units that are dispatched at economic minimum
 - In agreement with this portion of the PJM package

	PJM	MA	ICC
Price credited to Tier 1 resources outside of an event	SRMCP when NSRMCP > \$0	\$0	NSRMCP when NSRMCP > \$0
Tier 1 MW calculation	Status quo, but discontinue estimation of Tier 1 MW on resources self-scheduled and dispatched at min	Same as PJM	Status quo
Obligation to respond	Y	N	N
Refund owed for non-performance	Y	N	N
Parameter Changes	Allow Spin Max to be updated intra-hour	N/A	N/A
