

Maximum Emergency Temporary Change Extension

Issue Source

To address concerns with fuel and emissions that have emerged in recent months, PJM made a temporary change to M-13 Section 6.4 in the 'Note' to modify the remaining hours under which a resource may be offered as Maximum Emergency Generation. This 'Note' has an expiration date of 4/1 but needs to be extended to allow PJM and stakeholders additional time to work on a more permanent solution.

Issue Content

As part of the quick fix process, PJM is requesting the MRC approve an extension to the expiration date on the 'Note' to 10/1/2022 to allow PJM and stakeholders additional time to work on a more permanent solution.

Key Work Activities and Scope

Expected Deliverables

Revisions to Manual 13, Section 6.4

Decision-Making Method

Tier 1, consensus

Stakeholder Group Assignment

MRC

Expected Duration of Work Timeline

1 Month
