

Wind and Solar Curtailment Metrics

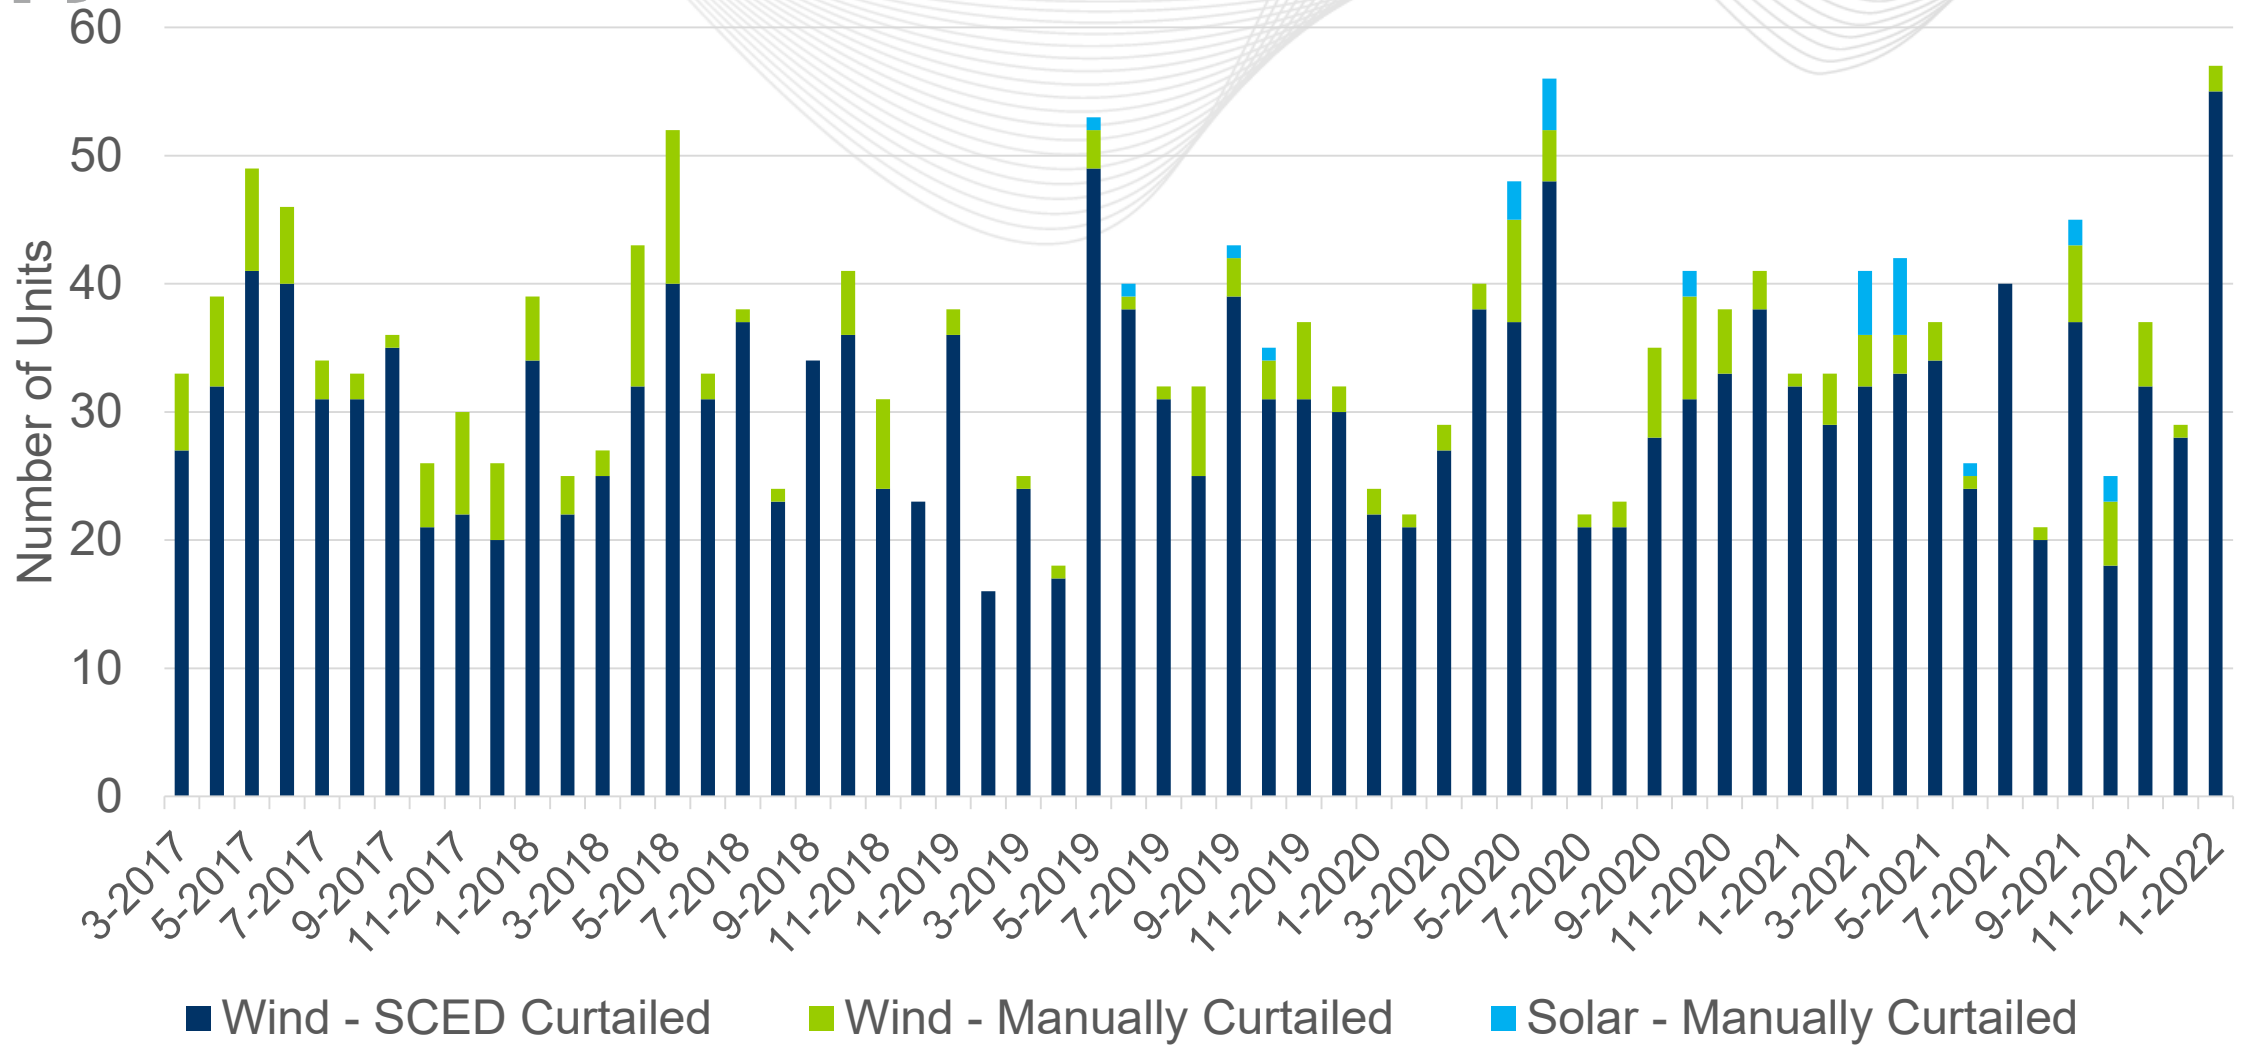

Joseph Mulhern
Lead Engineer, Generation

OC Special Session
February 22, 2022

Number of Curtailed Wind Farms and Solar Parks

Wind

71

Out of 77 farms

Solar

15

Out of 271 units

- Wind generation curtailed through manual curtailments has significantly decreased
- Most recent wind curtailments are done through SCED
- Solar curtailments can only be done manually at present
- Solar curtailments have increased in recent years
- Curtailments are widespread, with almost all wind farms experienced curtailment at least once
