

Internal Network Integration Transmission Service (NITS) Process

Issue Source

PJM.

Issue Content

The work is intended to only address the process needed to request internal transmission service

Key Work Activities and Scope

1. Education on the difference between internal and cross-border transmission service request
2. Education on how the transmission system is evaluated and maintained within the RTEP to ensure deliverability to all internal load from all internal generation sources.
3. Education on the customer steps necessary to assign internal NITS and the challenges that may be encountered when applying the pro forma language to internal NITS

Out of Scope

1. Modification to border service processes associated with Network Integration Transmission Service (NITS)
2. Modification to the Regional Transmission Expansion Process (RTEP)
3. Modification to the pseudo-tie request process
4. Modification to transmission service rates
5. Modification of the process to integrate new service territory into PJM

Expected Deliverables

1. Potential OATT revisions
2. Potential Manual revisions

Decision-Making Method

Tier 1, consensus (unanimity) on a single proposal in using the Consensus Based Issue Resolution (CBIR Lite) process in accordance with manual 34, section 8.6.2.

Stakeholder Group Assignment

This work is to be completed within the Operating Committee.

Expected Duration of Work Timeline

If approved, for time expediency, education will begin immediately following the approval of the Issue Charge and is expected to take three (3) months to complete.

Start Date	Priority Level	Timing	Meeting Frequency
