<b>MRC 1<sup>st</sup> read date:</b>	2/23/2023
<b>MRC voting date:</b>	3/22/2023
<b>Impacted Manual sections:</b> Section 1 - Added Pre-ISA project milestones on Site Permits, Acquisition of Major Electrical Equipment, and Fuel Delivery and Water agreements. Section 4 - Added posting requirement of historical ITO interconnection standards.	
<b>Reason for change:</b> Periodic Cover to Cover Review	

Summary of the changes:

## Section 1.1.1 ISA Project Milestones

Included the following pre-ISA milestones for clarity

- Site Permits – The Interconnection Customer must demonstrate that it has obtained any necessary local, county, and state site permits.
- Acquisition of major electrical equipment – The Interconnection Customer must demonstrate that it has signed a memorandum of understanding for the acquisition of generating units (including wind turbines and solar inverters) and other major electrical equipment such as main power transformers/GSUs, breakers, control buildings, PV Tracking equipment, PV panels, etc. for the project.
- Fuel Delivery and Water Agreements - The Interconnection Customer must demonstrate that it has entered a fuel delivery agreement and water agreement, if necessary, and that it controls any necessary rights-of-way for fuel and water interconnections.

## Section 4.2.3 Construction Standards on the PJM Website

Added the following language for the posting of historical Interconnection Transmission Owner (ITO) interconnection standards:

- In supporting interconnection projects which refer to a specific ITO Standard revision, all historical ITO interconnection standards versions shall be also be available on a separate link under the directory titled "Design, Engineering & Construction" at [http:// pjm.com/planning/design-engineering/to-tech-tandards.aspx](http://pjm.com/planning/design-engineering/to-tech-tandards.aspx)
