

Transmission Supplemental Project Criteria

**SRRTEP Assumptions
Meeting**

December 7, 2018

I. External Code Requirements

- A. The ODEC transmission system shall be constructed so to ensure safe operation and adherence to applicable codes and laws.
- B. The ODEC transmission system shall be constructed so as to limit negative impacts on environment and wildlife and in accordance with applicable regulatory standards.
- C. The ODEC transmission system shall be constructed in adherence with Government regulations, including, but not limited to those from: FCC, FAA, and DHS.

II. Interconnection Points

- A. Adherence to Agreements - ODEC transmission shall modify or add interconnection points as needed in accordance with applicable interconnection agreements.
- B. Environmental Rules - ODEC transmission shall modify or add interconnection points as needed to adhere to all applicable environmental regulations.

III. End of Life

- A. Justification: All End of Life projects will be justified on an individual project by project basis unless it is driven by an outside agency.
- B. Drivers:
 1. ODEC transmission shall replace aged facilities which because of their age or condition pose a danger to the environment the public.
 2. ODEC transmission shall replace aged facilities which because of their age or condition pose a risk to reasonable reliability and resilience levels.
 3. ODEC transmission shall replace aged facilities which because of their age or condition pose an increased total cost as compared to a new facility.
 4. Any combination of 1, 2, or 3, above.
