

Generation Deactivation Notification Update

Transmission Expansion Advisory
Committee

November 9, 2017

Unit(s)	Transmission Zone	Requested Deactivation Date	PJM Reliability Status
CP Crane Units 1 and 2 (385 MW)	BGE	6/1/2018	Reliability analysis underway
CP Crane Unit 3 (14 MW)	BGE	10/31/2019	Reliability analysis underway
B.L. England Unit 2 (155 MW)	AE	4/30/2017	Completed upgrades and a revised outage schedule triggered the need for a re-evaluation. The analysis showed that only one unit needed to be retained for the RMR. Only Unit #2 will continue with the RMR.
B.L. England Unit 3 (148.9 MW)	AE	4/30/2017
