- Getting Involved

Purposes of the Stakeholder Process

Educate each other on issues related to PJM markets, operations, planning, credit & risk, public policies and industry matters

Explore solutions, build consensus, and develop manual / governing document revisions which may help policymakers approve key laws and regulations

Enhance communication among members and between members and PJM management

Vet and approve/endorse changes to PJM markets, operations, planning and credit & risk as contained in the OA, Tariff, RAA and manuals

Manual 34: 4.2

Stakeholder Process

- Providing feedback/enforcement related to meeting deadlines, procedures, stakeholder protocols and quality control
- Efficiently utilizing the resources that PJM needs to service the stakeholder process

Logistics

Providing necessary analytic and logistical support

Facilitation

Providing fair, non-partisan facilitation of meetings for all participants

Education

Providing education and information on the issues

Informing

- Bringing forward operational and other important issues to stakeholders
- Keeping stakeholders informed about important outside events and interactions

Ideas

Developing proposals
(at member's request or as needed)

Advocating

Advocating necessary reliability or market design-driven initiatives

Manual 34: 4.1

It is the responsibility of each participant in the stakeholder process to represent its interests in cooperation with all other stakeholders to ensure the reliability of the PJM system and implementation of efficient, fair and transparent markets.

Specific responsibilities of the members include:

- Articulating their interests, concerns, and ideas and their basis of support for a particular approach or proposal
- Raising objections and concerns, and the responsibility to provide an alternative if they are not able to agree with a proposal or option
- Alerting the stakeholder meeting facilitator to specific sensitive concerns related to the process or subject matter
- Providing all materials in a timely manner for website posting and notification
- Adhering to the group's charter and work plan, and seeking to complete it in a timely and efficient manner including any regulatory or other deadlines

Manual 34

4.3 IMM

The market monitoring unit may, as it deems appropriate or necessary, perform functions under the PJM Tariff participate (consistent with the rules applicable to all PJM stakeholders) in stakeholder working groups, committees or other PJM stakeholder processes.

4.4 OPSI and State Regulators

- OPSI and its member regulatory agencies (commissions) have a unique relationship in the PJM stakeholder process.
- Currently, OPSI and the commissions are not members of PJM.
- OPSI as an entity, or any state commission individually, may elect to become a member as provided for in the Operating Agreement.
- Under a June 2005 Memorandum of Understanding between the OPSI Board and the PJM Board, commissioners and staff of commissions participate, deliberate, give input and engage at all levels of PJM stakeholder groups but do not vote on any issue.

Issue Initiation Process

PROBLEM STATEMENT

★ ISSUE CHARGE

CHARTER

A clear statement of:

- The problem or issue
- The situation to be improved
- The opportunity to be seized
- Why it warrants consideration in the stakeholder process

Includes:

- Objectives of the group
- Expected overall duration of work
- Milestones and deadlines
- Administrative details
- Priority and timing of work
- Assignment of the issue
- Decision-making method
- Determination if Issue Charge will serve as charter

New charters are only required for the creation of new standing committees and subcommittees. Charter updates are required for work assigned to existing groups.

Includes:

- Voting/polling authority
- Reporting requirements
- Sunseting requirements

Mutual Gains Theory

**Developed at the
Consensus
Building Institute,
with Larry
Susskind, MIT
professor**

**Process model
based on hundreds
of real-world cases
and experimental
findings**

- Four steps for negotiating better outcomes while protecting relationships and reputation
- Central tenet – parties typically have more than one goal or concern in mind and more than one issue that can be addressed in the agreement they reach
- Allows parties to improve their chances of creating an agreement superior to existing alternatives
- Emphasizes careful analysis and good process management
- Mutual Gains approach is not the same as “Win-Win”

Reference: The Consensus Institute

Mutual Gains – Four Stages:

- 1 Preparation
- 2 Value creation
- 3 Value distribution
- 4 Follow-through

CBIR – Four Steps:

- 1 Investigation & Education
- 2 Options & Proposals
- 3 Narrowing & Decision-Making
- 4 Reporting > Implementation

www.cbuilding.org/cbis-mutual-gains-approach-negotiation

1

Investigation & Education

- Develop and maintain a work plan
- Agree on roles, responsibilities, deadlines and goals
- Develop list of topics for coverage
- Describe and document existing operations and procedures
- Determine whether any information necessary to do the work is missing
- Explore and consider “best practices”
- Determine whether outside expertise or assistance may be needed

1

Investigation & Education

Identify Interests

- Ask participants to communicate the importance of the issue to their organization
- Ask participants to share the most and least important interests in regard to the issue
- Consolidate responses
- Batch and present visible themes

Brainstorm solution options and proposals using a two-step process

Step 1: Options Matrix

- Develop design components
- Identify priority level
- Propose solution options
- Evaluate and narrow down options (“winnowing”)

Options Matrix

	Priorities	Status Quo	A	B	C	D	E
Design Component 1	High	SQ Component 1	Option 1A	Option 1B	Option 1C	Option 1D	Option 1E
Design Component 2	Medium	SQ Component 2	Option 2A	Option 2B	Option 2C	Option 2D	Option 2E
Design Component 3	Low	SQ Component 3	Option 3A	Option 3B			
Design Component 4	Medium/High	SQ Component 4	Option 4A	Option 4B	Option 4C		

Step 2: Proposal Matrix

- Discuss development of proposals (packages), encouraging broad stakeholder proposals
- Use solution option for each package
- Identify similarities and differences
- Prioritize, refine and consolidate as best as possible

Proposal Matrix

	Priorities	Status Quo	Proposal A	Proposal B	Proposal C	Proposal D
Design Component 1	Medium/High	SQ Component 1	SQ Component 1	Option 1A	Option 1E	Option 1E
Design Component 2	Medium	SQ Component 2	Option 2C	Option 2B	Option 2D	Option 2D
Design Component 3	Low	SQ Component 3	SQ Component 3	Option 3B	Option 3A	Option 3B
Design Component 4	High	SQ Component 4	Option 4A	Option 4C	Option 4C	SQ Component 4

- Use polling and voting to narrow and gauge support for options and proposals

- Negotiate and build consensus
 - Tier 1:* Achieve consensus on a single proposal that all parties accept with no objections
 - Tier 2:* Provide 2–3 alternatives when consensus is not obtained under the Tier 1 approach

- Vote at parent committee and up the committee hierarchy as needed

- The task force or subcommittee is required to provide ***periodic updates*** and a ***final report*** to the parent committee
- Updates should include progress on milestones and deliverables
- The final report will detail all the of steps used in the evaluation process including the proposed solutions

The PJM Planning Committee decides that PJM and the members should develop a recipe for a cake to serve at a special event.

The PJM Planning Committee reviews a Problem Statement and approves an Issue Charge, and since there is no preexisting group that handles cake recipes, establishes a new Cake Task Force (CTF).

PJM assigns a facilitator and secretary, identifies SMEs, coordinates logistics, schedules the first meeting, and off we go.

Step 1A: Review the Problem Statement, Issue Charge, and develop a work plan

Step 1B: Educate and perform joint fact finding

Step 1C: Identify interests

Live Matrix Practice

The facilitator prepared a report on behalf of the task force, which included the preferred recipe of the vast majority of the participants (Recipe 4) and Recipe 2, the gluten-free alternative.

The report included:

1. A copy of the matrices (both component options and recipes/packages)
2. Polling results
3. A brief discussion of the consolidated interests considered in reviewing the options and recipes (packages)
4. A recommendation for further future research on gluten-free flours — perhaps for PJM’s next cake
5. A query about the possibility of making a few gluten-free cupcakes to go along with the chocolate cake this time around

- **Enhanced Liaison Committee (ELC)** – formal process that creates coalitions to present to the PJM Board for decision
- **Critical Issue Fast Path (CIFP)** – streamlined formal process, using the matrix, education, proposals, presentations to the Board and voting at the MC
- **Quick Fix** – brings the solution along with the problem for straightforward issues
- **CBIR Lite** – creates a subgroup of a standing committee with no voting authority
- **User Groups** – Stakeholder group formed by five or more voting members sharing a common interest; minority protection

The objective of the annual plan is to document the work to be completed in the coming year

The annual plan should be used where prioritizing issues in the stakeholder process

The plan will include issues likely to result in proposals to the Members Committee for approval

My Email Lists

PJM uses a number of lists to send meeting notices, materials, voting or polling results, tool updates and reminders to stakeholders. To subscribe to a list, browse the topic categories and select the lists to which you would like to be added. Once you have made your selections, click the submit button. **Selections will be processed within 10 minutes of submission. Do not attempt to resubmit the selection as this will overwrite the latest request.**

If you don't see an email list in the *Available Subscriptions* box below, you can update your subscription preferences via the [Email List Update form](#) by entering the name of the mailing list which you would like to be subscribed to or unsubscribed from.
