

eRPM/Capacity Exchange Roadmap

As of August 15, 2018

- Implementation is targeting week of 9/26 for Go Live
- There will not be a parallel operations period
- Member education date – you can register online
 - **September 19, 2018**
- XML samples are posting as available
- Train will be turned on end of August
 - SUMA will not be available yet

- Reasons for Refresh
 - Incorporate Single Sign-on functionality
 - Follow PJM enhanced model for Tools
- Scope
 - Refresh of User Interface (UI)
 - ~~– Utilize PJM Command Line Interface (CLI - includes SSO integration) to access Capacity Exchange API (similar to past refreshes)~~
 - **8/23 Update – CLI will not be available for Capacity Exchange, users will have browserless capability similar to Markets Gateway and FTR Center
 - Browserless interface changes (minimal, if any)

- View or start a discussion on the [Tech Change Forum Community](#).
- Please contact capacityexchangesupport@pjm.com with any questions.
- An email list is currently available: The RPM Auction User Information Email List is available for subscription at [pjm.com My Email Lists](#).

RPM Auction User Information

Product Details

The [eRPM](#) refresh is underway. The refreshed application will be called Capacity Exchange.

Customer Impact/Expectation

- Customers will be required to update/replace existing browserless configuration.
- At minimum, participants will be required to update browserless to reference Capacity Exchange and utilize single sign on (SSO).
- Customers will be requested to test in the Train environment.
