Tech Change Forum

The Tech Change Forum is a group for PJM and its members to coordinate, consolidate and share information about upcoming changes to PJM's tools and systems. The forum will meet regularly to discuss how PJM can help members get ready for planned changes, the design of tools' features and their prioritization, and how and when changes will be implemented.

The forum is for individuals who work hands-on with PJM's tools or are responsible for the technology their organization uses to work with PJM's tools.
