Tech Change Community

| Issue | Resolution | Status |
|---|---|---|
| Transmission Limits feed does not update when there is no binding constraints as well as there is a data update error. This will cause confusion to users. | The design is in line with all other feeds in Data Miner. No change necessary. | Closed |

# Product Details

Data Miner is the central data repository and interface for PJM public data.

**Key Product Features**

- Unified / highly available interface for all PJM public data

- APIs available for system to system integrations

- Metadata available

- Large Data Export feature available. Download limits are as follows: UI – Up to one million rows. API – Up to 50K Rows per fetch

PJM is referring to Data Miner 2 as simply "Data Miner". This change is being made incrementally across various tools, documentation, and pjm.com. This is simply a change for convenience.

<u>No technical changes are required.</u> (For example, URLs remain unchanged)
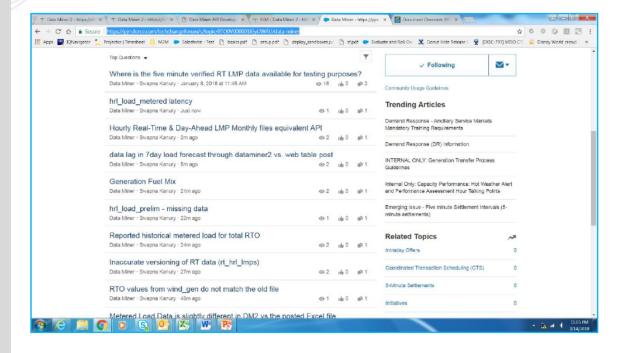

- ## eDataFeed migration to Data Miner

  - eDataFeed data streams will be available in Data Miner from June 26, 2020 onwards. The API Guide will be updated to reflect the API short names and attributes

  - Release notes will have additional information such as the feed names and descriptions

  - Data for these feeds will be available on UI and API

  - All feeds are made available in the beta (train) environment from June 12 onwards for testing purposes. Please note the data in stage is only for testing purposes and not production quality data.

  - eDataFeed will tentatively retire on June 26, 2021

  - Final feed list and mapping of eDataFeed to Data Miner feeds is available on the [tools page](tools page)

- API Portal Issues tab migrated to Tech Change Forum Community
