- We will provide January demonstrations on January 20

Product(s)	Date	Issue
Markets Gateway	<b>December 4</b>	Markets Gateway requests began taking longer to process than normal. Application servers were restarted to address the issue.
Data Miner eDataFeed	<b>December 9</b>	Incorrect contingency and constraint shadow price data was posted between December 9 and December 10. This was caused by unforeseen impacts from the recent Model Build activities. These data issues were resolved by the Model Management team.
