Product	Date	Issue
Data Miner	June 22	Unverified LMPs and Transfer Interface Information feeds were impacted by a slowdown in processing times on one of PJMs production systems. The system was tuned to prevent this from happening again.
Markets Gateway	July 13	An issue with one of PJM’s data transfer systems caused a delay in processing the Day-Ahead Market results which caused late posting of results to Markets Gateway and an extended Re-bid period. PJM is currently working to address the issue permanently.
