Enhancements Release

- Maintenance release
 - Make Queue Numbers visible to members
 - Create Regulation Report

Enhancements Release

- Maintenance release
 - If a user is a Company Account Manager, they will no longer be allowed to remove Account Manager Read Write. They will be directed to contact their Authorized Reps or Maintenance Managers to process the request through Membership Maintenance
 - Bulk Terminate Users: This feature will allow PJM CAMs to select multiple accesses on the Access Search page and Bulk Terminate them.
 - PKI certificate expiring notifications will get sent "30,20,14,7,4,3,2,1,0" days before the PKI cert expires.

Enhancements Release

- Maintenance release
 - User Name will be included in emails requested for password resets.
 - Users will have the ability to export a csv report of all of their access for an accounts.
 - User Registration API: Allow companies to register users using an externally available API.

Product Details

[Account Manager](#) is used to create accounts and request and grant access to PJM's tools and website.

Key Product Features

- Grants access to PJM Tools
- Member CAM's can determine and regulate access for their respective companies

[Bulletin Board](#) facilitates power contracting activity.

Key Product Features

- Provides users with access to a larger pool of buyers and sellers of contracts for electric power
- Allows users to view, post and modify requests to buy or offers to sell power

[Data Viewer](#) allows users to view operational and market data graphically.

Key Product Features

- Display real-time LMPs, IT SCED forecasted LMPs, Dispatch Rate, etc.
- Customizable data plots and graphs

[Messages](#) provides updates and important messages regarding PJM tools.

Key Product Features

- Used by members to view updates and important messages regarding PJM tools

[Resource Tracker](#) provides generation owners a single view of generator ownership information as recorded across various PJM applications.

Key Product Features

- Single point mechanism for generator ownership information
 - Ownership changes
 - Energy, Capacity and Ancillary Service Ownership
 - Marketing Company
 - Dispatching Company
- Annual confirmation period
- Created in 2013 to provide a single point mechanism for Generation Owner Information
- In December 2018, Stakeholders endorsed changes to move confirmation period to Annually with a 4 week duration
- In 2019 and 2020, further enhancements were made to field logic and formatting

[Voting](#) facilitates voting at the Markets and Reliability Committee and Members Committee meetings.

Key Product Features

- Facilitates voting at the Markets and Reliability Committee and Members Committee meetings
- Vote tallying and reporting
- Tool also allows both on-site and remote meeting attendees to cast votes for agenda items presented to the membership for voting
