## Migrated users...

- Can only log into eDART via PJM Tools
  - Train: <https://edartssotrain.pjm.com/edartsso>
  - Prod: <https://edartsso.pjm.com/edartsso>
- Can use Single Sign On to log into eDART
- Will require PKI certificate for browserless interaction with eDART (if the user/system account does not already have one)
- Should contact their company CAMs for password resets and unlocking accounts

At the end of the user migration period, accounts that remain in eDART will be revoked

<b>As of: 9/1/2023</b>	
Companies in eDART	730
eDART Accounts*	7,572
eDART Accounts in AM	507
% Complete	6.7%

*\* Account numbers will likely change during migration period (e.g., includes accounts that may not be migrated)*

- eDART is a suite of tools and, as such, has a security configuration that is not compatible with SUMA
- After extensive consideration and technical evaluation, eDART will not be SUMA-enabled similar to other tools
- Consider eDART CDW for SUMA-like experience
  - See [Unit-Task](#) or [Member-Agent](#) presentations for overview of functionality
  - Contact [eDARTHelp@pjm.com](mailto:eDARTHelp@pjm.com) to request CDW demo

With the eDART account migration to Account Manager (eff. 7/25/2021), PKI certificates are required for all browserless communications

For eDART:

- PKI is required if accessing eDART via PJM-CLI (browserless)
- PKI is not required if accessing eDART via UI
- PKI is not tool-specific, therefore certificates already set up for use of other PJM Tools can be applied for eDART browserless usage

## Deliverables:
