Project Status and Cost Allocation Page Updates

- Updates include:
  - Immediate-Need Projects will now be displayed along with other project types.
  - Additional project-related information will become available.
- The release is scheduled for the end of March.
- The latest updates will be demonstrated at the next Tech Change Forum.

PJM © 2023

Planning Reforms - New Interconnection Requests Process

- PJM is currently implementing a Reformed Interconnection Process, which involves transitioning eligible New Service Requests from a serial 'first-come, first-served' queue approach to a 'first-ready, first-served' cycle approach.
- Projects in both formats will be available on PJM.com.
- The initial phase is scheduled for release in May.

PJM.com Slowness

PJM.com slowness is a long-term initiative with many variables due to the complexity and size of the website. We are working through multiple factors that may contribute to the website delays, specifically:

- Move Search engine to Cloud - Completed in March 2023
- Hardware updates – Completed in January 2024
- Network adjustments – Complete in February 2024
- Refactor PJM.com home page – Launching in February
- Move PJM.com and its sub-sites to Cloud – In progress (Target completion: May 2024)
- Upgrade software to the latest version – In progress (Target completion: May 2024)
- Refactor code base – In progress (Target completion: December 2024)
- Measure performance metrics – Ongoing

PJM © 2023

Scraping from PJM.com

- PJM does not support scraping data from the website
- Data is provided in Data Miner
- Code base refactoring of the homepage will break existing home page scraping processes

Moving the PJM.com site to Cloud will break some automated processes (scraping) used to retrieve data from the site. (May 2024)
