eDART Release (Train & Production: 06/26/2024)

- Change to Submit on Time Rules when transmission tickets are un-cancelled
 - If un-cancelled within the same month of latest cancellation, run the ticket through the Submit on Time rules for ticket revisions.
 - If un-cancelled after the same month of latest cancellation, follow current process.

eDART Release (Train & Production: 06/26/2024)

- Transmission Ticket API Automatic Equipment Selection
 - Update the transmission ticket API so that when the user submits a ticket without selecting the primary equipment, the system selects the first outaged equipment as the primary equipment.
 - Change the default value for the NERC TADS Operational and Planned variable to N/A as the current default value of -1

eDART Release (Train & Production: 06/26/2024)

- eDART enhancement to send email notification of approved restoration plans
 - To be sent at time of approval
 - Recipients will be the eDART black start contacts for TOs who have requested to view the particular approved restoration plan (via the Restoration Plan Notification Request form in eDART).
- Retire current manual process
