

- PJM will offer a 2-hour refresher training session on April 14 CDS meeting for Operating Costs and Maintenance Adder (VOM) submission for the 2021 annual review.
- The VOM submission for 2021 is required for stakeholders that intend to include non-zero operating costs or maintenance adders in cost-based energy offers for 2022.
- The refresher training is designed for those who compile and submit the VOM data.
- The training topics will include:
  - Background of VOM review
  - Instructions of entering templates and submitting in PJM Connect
  - Walk-through of PJM review standards and guidelines
- Please be sure to sign up for the CDS meeting for April 14 if you'd like to attend.
