Data Migration Plan for Sandbox

• Production data will be ported over to DR Hub Sandbox in mid-September (Sandbox opens to members in late September)

• eLRS Sandbox will not be updated with production data

• Data to be migrated:
  – Effective Registrations and their associated events, settlements, compliance
  – Registrations terminated within last 2 years, events, settlement, compliance with event date in last 2 years

• Expect production implementation/migration to follow same rules
• Users permissions will be updated automatically
  – DR Hub Read/Write will be given for current eLRS
    Manage All, Manage Registrations, Manage Settlements
  – DR Hub Read All for all other permissions
