FERC Order 844
Uplift Cost Allocation and Transparency in Markets Operated by RTOs/ISOs

Rami Dirani
Sr. Economist, Advanced Analytics
Demand Response Subcommittee
August 30, 2018
Reporting requirements to increase transparency

- Zonal Uplift
- Resource Specific Uplift
- Operator-initiated Commitment
- Transmission Constraint Penalty Factors
RTO/ISO Requirement
Report the total daily uplift payments and charges in dollars within each uplift category by zone

FERC Required Timing
Post within 20 calendar days of the end of the month

PJM Proposed Timing
Post approx. 7 calendar days from the end of the target month

Proposed Operating Agreement Language
(ii) Within 20 calendar days after the end of each month, (A) the total daily uplift credits by Zone as set forth in Tariff, Attachment J and RAA, Schedule 15, and by applicable uplift charge codes (including lost opportunity cost contained within operating reserves) and (B) the total daily uplift charges by Zone as set forth in Tariff, Attachment J and RAA, Schedule 15 and uplift charge codes along with relevant subcategories by which they are allocated. The Office of Interconnection shall incorporate the best available information at the time the posting is created.

* Existing uplift credits report will continue to be posted
**RTO/ISO Requirement**
Report the unit specific resource name and the total amount of uplift (or uplift categories) paid within the calendar month.

**FERC Required Timing**
Post within 90 calendar days following the end of the reporting month.

**PJM Proposed Timing**
Post approx. 7 calendar days PLUS one month from the end of the target month.

**Proposed Operating Agreement Language**
(iii) Within 90 calendar days after the end of each month, the name of each resource unit and amount of uplift credit payments by applicable uplift charge codes (including lost opportunity cost contained within operating reserves, but excluding Black Start Service) for each resource unit that received uplift credits in that month. The Office of Interconnection shall incorporate the best available information at the time the posting is created.
RTO/ISO Requirement
Post all operator initiated commitments after the day-ahead market, whether manual or automated, for a reason other than minimizing the total production costs of serving load. Include the size of the commitment, transmission zone, commitment reason, and commitment start time.

Commitment reasons: system wide capacity, constraint management, and voltage support.

FERC Required Timing
Post within 30 calendar days after the end of the month

PJM Proposed Timing
Post approximately 20 calendar days from the end of the target month

Proposed Operating Agreement Language
(iv) Within 30 calendar days after the end of each month, each Operator-initiated Commitment listing the size of the commitment in megawatts, where megawatts are equal to the economic maximum, Zone as set forth in Tariff, Attachment J and RAA, Schedule 15, commitment reason, and commitment start time. Commitment reasons shall include, but are not limited to, system wide capacity, constraint management, and voltage support.
Revisions to the practices surrounding transmission constraint penalty factors are currently under discussion as part of the “Transmission Constraint Penalty Factors” issue.

- PJM filed (July 25, 2018) a motion for extension of time until November 9, 2018.
- FERC granted motion for extension.
