• For package(s) you CANNOT live with (these are the packages you DID NOT select in the previous question), is there 1 solution component change that will allow you to NOT reject the package? If yes, please indicate which solution component. Please add your recommended change so that you can live with the package to the associated package comment field. For example, if you cannot live with PJM3 proposal because Testing may occur on weekends then please indicate in the table below under component 4 (Test/Retest period), and add your recommended change to the PJM3 Proposal comments line at the end of the question:
Proposal components that would need a change to enable stakeholders to live with proposal
From 1 to 4, please rank the importance of the different solutions for the “Notification time prior to test” (component 11a). Where 1 is the most important solution of the 4:
