

2022 5CP and Add Backs Load Management and PRD Actions for Tests and Energy Settlements

October 2022

2022 High Load Days - 5CP Candidate Dates (Est)

- Load reductions on these dates may impact 5CP determinations
 - 6/15/2022
 - 7/19/2022
 - 7/20/2022
 - 7/21/2022
 - 7/22/2022
 - 8/2/2022
 - 8/3/2022
 - 8/4/2022
 - 8/8/2022
 - 8/9/2022

Capacity Performance (CP) and PRD Requirements for use of Test load reduction for Add Back

- If CP DR and PRD tested on one or more of the High Load Days and,
- If CSP wants those test reductions included in the 5CP and Add Back processes and,
- If CSP certain that they won't test in October 2022 or May 2023
- Then CSP must contact PJM at dsr_ops@pjm.com
 - Test will be put into Confirmed status by PJM
 - CSP will submit compliance data for test by deadlines on next slide
 - CSP forfeits potential additional **Tests** in Oct 2022 and May 2023
 - **Retesting** can still be performed

If CSP does not contact PJM, test load reduction will not be used for Add Back

- LM test event confirmed and compliance data:
 - By Oct 11, will be used in determining 5CPs
 - If provided after Nov 1 will NOT have an Add Back calculated
- Economic Energy Settlements for LM locations placed in Pending or Confirmed status:
 - By Oct 11, will be used in determining 5CPs
 - If done after Nov 1 will NOT have an Add Back calculated
- PRD meter data provided for high load days, tests and compliance events:
 - By Oct 11, will be used in determining 5CPs
 - If received after Nov 1 will NOT have an Add Back calculated
