

# Solar Forecast Update

Joseph Mulhern  
Generation Department  
September 15, 2016

- **Current Status**
  - Selected vendor, performed security review, provided static data
  - Begin receiving forecast data by end of Q3
- **Plant Owner Data Request**
  - Static data: Tilt angle, azimuth angle, panel manufacturer, etc.
  - Dynamic data: MW output, measured irradiance, temperature, etc.
- **Next Steps**
  - Provide member companies access to forecast data in Data Viewer
  - Track and take steps to improve forecast accuracy
  - Configure data links to receive real-time meteorological data
