

5 Minute LMP Spike Analysis

Ray Fernandez
Manager, Market Settlements Development
Market Settlements Subcommittee
September 21, 2017

- Goal is to compare Hourly vs 5-min settlement spot market energy calculations using actual DA & RT LMPs from 8/16/2017
- Generation DA Energy is hourly, i.e. MWh
- Generation RT Energy is in 5-minute intervals but still a MWh value
- Generation RT prices are in 5-minute intervals and are \$/MWh

Sample Unit Cost Curve
